Steven, my changes are added to the review from Billy. Mine are mostly editorial in nature. It is clear that this was a huge amount of work and is succinctly summarized. Well done.

Billy,

Thank you so much for your comments, I have updated the PID accordingly. Should we expect additional comments from Elissa as well? I did want to bring up four comments you mentioned to make sure we are addressing them appropriately:

1)

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

2)

Attached are my comments. Most are editorial in nature but there are a few questions sprinkled throughout. One overarching thing I saw was going from using 1 space to 2 spaces after a period. Not a big deal but it was obvious when it was within the same paragraph.

Overall, I can see the immense amount of time and effort that has been put into this document. I am very impressed. Great job!

Good afternoon,

I understand that Marianne just came and spoke to you Billy and mentioned you hadn't had an opportunity yet to look at the imidacloprid PID. If that's the case, please let me provide you both a much more up to date version. Please let me know if you have any questions.
